

## Success for the Label Printer - Confirmed by AFTA

9 awards out of 10 is the result of this year's Asian Flexo Excellence Awards for customers of Gallus EM 280 printing machines. The entries were judged on a wholly quality oriented set of criteria making this result more proof for Gallus' quality orientation.

On the ceremony for the 2nd Asian Flexo Excellence Awards 2005 held in Kuala Lumpur (Malaysia), Gallus' customers were awarded **9 out of 10** awards in the "colour halftone" section within the narrow web category. This astonishing result was achieved by the following label printers:

### Paper substrate:

Award	Entrant	Design	Ink	Print machine
<b>Gold</b>	Winson Press	Who Hup Vegetarian Sauce	GSB	Gallus EM 280
<b>Silver</b>	Winson Press	Birds Nest with Rock Sugar	GSB	Gallus EM 280
<b>Silver</b>	Super Enterprise	Woman of Earth	XSYS	Gallus EM 280
<b>Bronze</b>	Wintek Flexo	Minto Orange 20's	Flint	Gallus EM 280
<b>Bronze</b>	Pemara Labels	Duck Trang Bang	XSYS	Gallus EM 280

### Filmic substrate:

Award	Entrant	Design	Ink	Print machine
<b>Gold</b>	Pemara Labels	X Men Hollywood Sport	XSYS	Gallus EM 280

Gold (filmic substrate): **Anlac Labels**

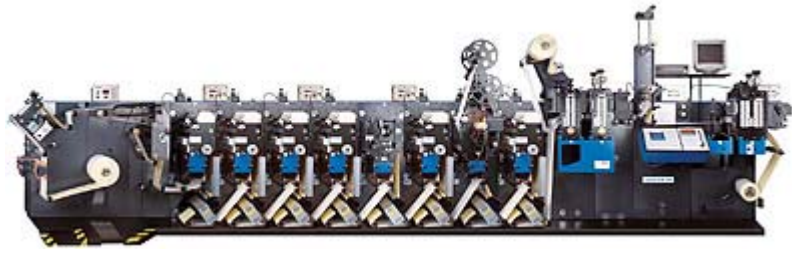

Silver (filmic substrate): **Super Enterprise**

Bronze (filmic substrate): **Winson Press**

AFTA, the Asian Flexographic Technical Association had organized the awards with the goal to promote quality printing in the **region that is representing more than half of the world's total population**. The entries were judged on a wholly quality oriented set of criteria; the Judges had been selected from within Asia and from around the world and are recognised experts in their areas of expertise.

All of the labels mentioned above were printed on a **Gallus EM 280**. It is the superior printing quality, high productivity, unlimited flexibility, ease of use, compact machine design and unchallenged reliability that make this printing machine so successful.
