

## ***Labelexpo Europe 2017***

### **Gallus Screeny: Easy to Use – Fast to Print**

St. Gallen, September 2017 – Gallus Screeny will impressively demonstrate at Labelexpo 2017 that rotary screen printing speed no longer needs to be a limiting factor in label printing. By selecting the right system components, users can significantly accelerate screen/flexographic combination printing without having to trade this off against quality. The screen printing experts at Gallus will be showcasing the system components required for this under the banner Gallus Screeny: Easy to Use, Fast to Print. A Gallus Labelmaster equipped with Gallus Screeny speedprinting components will present the incontrovertible evidence during the trade fair by producing labels at speeds that set new benchmarks.

The screen printing department will also be teaming up with Heidelberg to showcase the new Phoenix UV LED direct platesetter. With this innovative exposure system, high-quality printing formes can be produced for almost all printing processes. Whether for screen, flexo, offset and letterpress printing, the Phoenix offers a future-proof solution for the production of high-quality printing plates with the best profitability.

This device is particularly fast and easy to use and represents a key element in process-oriented screen manufacturing for Screeny customers.

### **The Gallus Group**

The Gallus Group, with production facilities in Switzerland and Germany, is the world market leader in the development, production and sale of narrow-web, reel-fed presses designed for label manufacturers. The machine portfolio is augmented by a broad range of screen printing plates (Gallus Screeny), globally decentralised service operations, and a broad offering of printing accessories and replacement parts. The comprehensive portfolio also includes consulting services provided by label experts in all relevant printing and process engineering tasks. The Gallus Group is member of the Heidelberg Group and employs around 430 people, of whom 253 are based in Switzerland, where the Group has its headquarters in St. Gallen. As a member of the Heidelberg Group, the Gallus Group uses the Heidelberg global sales and service network.
